

YES ON 3

PREVENT ANIMAL CRUELTY

A YES! vote on Question 3 will prevent cruel treatment of animals in Massachusetts by ending the practice of cramming farm animals into cages so small they can't turn around or stretch their limbs.

A YES! VOTE ON 3:

- **Prevents animal cruelty.** Voting YES! on 3 will stop these cruel practices and protect animals from these abuses. It's cruel and inhumane to cram animals into cages so small they can't turn around or extend their limbs.
- **Promotes responsible farming.** Voting YES! on 3 will help promote responsible farming. That's why it's been endorsed by more than 100 Massachusetts family farmers and the United Farm Workers.
- **Improves food safety.** Voting YES! on 3 will eliminate inhumane and unsafe products from the Massachusetts marketplace. These cruel practices are abusive and increase the risk of food safety problems like Salmonella, which is why the Center for Food Safety endorses a YES! vote on Question 3.
- **Implements commonsense protections for animals, the environment, and food safety.** Question 3 is a moderate measure supported by Massachusetts veterinarians and farmers and would cost only about a penny per egg. That's why big egg buyers are already starting to go cage-free - including McDonalds, Walmart, and Burger King.

A YES! vote on Question 3 prevents cruel treatment of animals in Massachusetts by ending the practice of cramming farm animals into cages so small they can't turn around or stretch their limbs, and will remove inhumane and unsafe products from the Massachusetts marketplace.

Massachusetts family farmers and the MSPCA support YES! on 3 because proper treatment of animals is better for farmers. From McDonald's to Walmart, retailers are switching to cage-free eggs—it's the right thing to do at the right cost.

"Voting YES on Question 3 is the right thing to do for Massachusetts!"

VOTE  **YES ON 3**

Protect consumers. Prevent animal cruelty.
